11. Under Agenda item 4 concerning its previous proposals, the WG came to the conclusion that the Participating States had faced some difficulties regarding implementation of the Proposals of the WG on Environmental Protection worked out during its meeting held in Varna on 4 November 1993, due to the lack of coordination among the Participating States. But at the same time it was pointed out with satisfaction that some of the proposals were being further developed within the framework of various ecological programs and others were reflected in the Conference Declaration.

15. The WG asked the Secretariat in cooperation with the EU and other international organizations to study the possibility of holding joint meetings among various BSEC Working Groups with regard to introducing procedures of the Environmental Impact Assessment in the activities of the said Working Groups.
